

## Bumps in the Night!!!!

March 2015 – Issue No. 55

### Tools of the Trade

#### Little Known, but Useful Tools

By Melissa and Tracey Tanner, TnT Paranormal Investigators LLC

This month we decided to provide links to former articles that are about some little known, but very useful tools. Such as:

- [Inductive Amplifier](#) – Detects man made EMF.
- [Kestrel](#) – To gather barometric pressure and wind speed information.
- [Humidity Sensors](#) – To gather humidity readings.
- [Other Tools to Consider](#)

Inductive Amplifier

Level

Kestrel

Humidity Sensor

### Name this Haunted Location

Do you know the name of this haunted location? Email us with your guess at [info@tntparanormal.com](mailto:info@tntparanormal.com).

Name this Haunted Location from the last issue was from MO State Pen in Jefferson City, MO.
